

Lectures of Invited Speakers

No.	Name	Country	Lectures
1.	A. M. Aranovich	Russia	Limb lengthening using Ilizarov
2.	A.T. Khudiaev	Russia	Disease and injuries of the spine using external transpedicular fixator
3.	Alexander Kirienko	Italy	Correction of foot Deformities
4.	Arshak Mirzoyan	Armenia	Cosmetic Lengthening
5.	Choi, In Ho	Korea	Fibular status-based algorithmic approach to Ilizarov osteosynthesis and ankle stabilization in atrophic-type congenital pseudarthrosis of the tibia(CPT)
6.	D. Yu. Borzunov	Russia	Filling in the defects using Ilizarov
7.	Eduardo Stefano	Argentina	External fixation in bone tumor
8.	Gerald E. Wozasek	Austria	Callus formation - from limb reconstruction to life style surgery
9.	Giovanni Peretti	Italy	Lengthening of achondrplasia
10.	Hiroyuki Tsuchiya	Japan	Ilizarov application for tumor surgery
11.	Jhunhunwala	India	Infected Nonunion
12.	John Birch	USA	Ilizarov fixation of the Spine
13.	Kevin Tetsworth	Australia	Lengthening by IMN
14.	Kwang Soon Song	Korea	Treatment of Segmental Fracture of the Tibia with Ilizarov Circular External Fixation
15.	Michael Weber	Germany	Cable Technique
16.	Milorad Mitkovic	Serbia	Biomechanical features of external fixators. Big advantages and some disadvantages in fracture treatment and bone reconstruction in 21st century.
17.	N.M Klyushin	Russia	Chronic osteomyelitis using Ilizarov
18.	Philippe Hernigou	France	Treatment of Non-union with Progenitor Cells
19.	Pierre Lascombes	France	Long bone lengthening using combined circular external fixation and intramedullary flexible nailing. Experimental studies
20.	Rainer Baumgart	Germany	Future trends in limb lengthening and treatment of bone defects
21.	Reggie Hamdy	Canada	BMP : The role of BMPs in non-unions and bone lengthening.

22.	Sanjeev Sabharwal	USA	Management of Blount disease
23.	Saw Aik	Malaysia	Skin interface infection after external fixation
24.	Shabalin D.A.	Russia	Hand pathology using Ilizarov
25.	Slongo, Teddy	Switzerland	Advancement in bone lengthening in pathological bone, close medullary canal and open physis!
26.	T. Yu. Karaseva	Russia	Treatment of large joint using combined method - arthroscopy and Ilizarov
